

Bespoke Energy Labels

The BFRC Scheme is the UK's national system for rating the energy efficiency of windows and is recognised within the Building Regulations as a method to show compliance for your replacement windows installation.

Window Energy Ratings use a consumer-friendly traffic-light style A-E ratings guide similar to that used on 'white' goods (such as fridges, freezers, washing machines etc...). This ratings label can be used by you to make more informed choices about the energy efficiency of the windows you are looking to purchase.

With carbon emissions high on the global agenda and the current high cost of fuel, we are all looking for ways to make our homes more energy efficient.

Convey the specification of your window via this nationally recognised label. Window Widgets will customise it with your company, window, rating details as per this example.

Fill in your details below and fax back to **01452 416654**

Company Name Company Logo Cert No.
Energy Rating

YOUR LOGO  KM20712  CERTIFICATE No. 91/2724
