DECORATIVE TRIM

482044

This 90° Cornerpost is designed to work with any frame depth from 58-70mm. Frames butt to the inside and you have the option of using a decorative or non-decorative PVCu trim to the outside. Bay Jack 'C' is designed to work with this product – the same one as you use with the variable angle bay. This product is loadbearing. **For Bay Jack order Jack C**
