DECORATIVETRIM

482160DEC

This is a 90° Cornerpost designed for 70mm frames only. It is different to WWL126 in that it has a cloaking trim to the inside – covering up mis-measures! It has a detail to stop the PVCu trims from being pushed on too far. It is also stronger. Use Baypole Jack 'C'. 482160 really is the premium product of choice for your cornerpost. This product is loadbearing. 2mm per side frame deduction. **For Bay Jack order Jack C**
