

Updated Delivery Information

(Effective from 1st November 2025)

We have reviewed our shipping costs and have split out into areas and fixed delivery days to ensure the most consistent and cost effective service possible, please see below and corresponding map. For all orders over £2,000 delivery is FOC to all the areas and zones listed below with delivery days, we would encourage you to amalgamate your orders to ensure this is met. There will be additional charges for any non-delivery day orders.

For simplicity, your order cut-off is now 3 days (4 days for Scotland) prior to your delivery day for both Window Widgets and Residence Collection products.

Also as part of our NCR process, we have decided to remove the overnight DX option, unfortunately the complaints have outstripped the service.

For any areas outside of this please contact us for delivery information prior to ordering.

All orders <i>greater than</i> 2.5m in length
